

# Piezometer Groundwater Sampling Kit

The Piezometer Sampling Kit provides a semi-permanent sampling point for shallow groundwater sampling investigations. The piezometer extensions feature a 7/8" inside diameter providing ample room for collecting water level elevations. This complete kit includes everything needed to place sampling points to a depth of 12 ft.

### FEATURES

- Built for tough soil conditions
- Portable for limited access areas
- Heavy-duty drive points connect to any 4' x 3' piezometer extensions
- Barbed Twist-to-Lock Connector acts as a drop weight and sampling point

### APPLICATIONS

- Environmental Sampling
- Landfills
- Hazardous Waste Sites
- Underground Storage Tank/Pipe Leaks

Case with Piezometer Parts & Extensions

Case with Removal Jack & Hammer
