

Drum and Tank Samplers

Drum & Tank Samplers

Drum and Tank Samplers are designed for accurate and easy sampling of liquid and sludge from the most common sources – 55 gallon drums, truck and rail tank cars, large tanks, streams, lakes, rivers, and lagoons. They combine innovative features with interchangeable components for a system that is versatile and cost effective.

SAMPLING DEVICES FOR DIVERSE APPLICATIONS

- A Pinpointer** – allows samples to be drawn at a specific depth, 100% virgin fluoropolymer.
- B Mucksucker** – designed for sampling high-viscosity fluids, sludge and mud, 100% virgin fluoropolymer.
- C Dipstick** – a versatile tool for safe, easy sampling of liquids from virtually any source. 100% virgin fluoropolymer (interchangeable parts) or polypropylene (2-piece only unit).

Ultrapure, Chemically Inert – Samplers minimize absorption and adsorption. All sampler surfaces resist corrosion and are non-leaching.

Interchangeable Components – Samplers enable the user to tailor the tool to specific applications, resulting in cleaner, faster, safer and more accurate sampling.

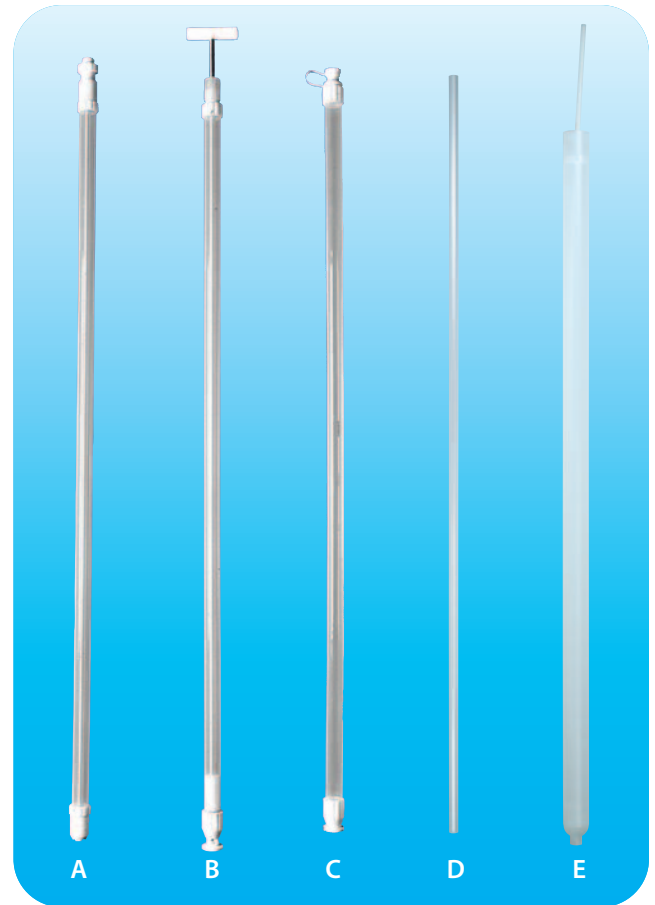

Translucent Body – All sampling tubes are translucent, permitting a visual inspection of the contents. This visibility also helps the user to see immiscible layers and to determine the sludge depth in composite samples.

Safe, Tough Components – Unlike glass, Sampler components are virtually unbreakable. They are wear resistant and extremely durable, and can stand up to the toughest field use and handling.

Easy to Clean – All removable and interchangeable components incorporate a unique, round inner thread design for easy cleaning.

D Drum Thief – clean and ideal for single use applications, PVC.

E Coliwas – inert HDPE resists most chemicals and solvents. The positive displacement, rod controlled valve features a set of four clamping fingers to assist in holding the valve shut.

SPECIFICATIONS

Model	Material	Dimensions
A Pinpointer	Fluoropolymer	40" (101.6cm), 7' (2.1m)
B Mucksucker	Fluoropolymer	40" (101.6cm), 7' (2.1m)
C Dipstick	Fluoropolymer or Polypropylene	40" (101.6cm), 7' (2.1m)
D Drum Thief	PVC	42" L x .5" OD (106cm x 12mm)
E Coliwas	High Density Polyethylene	49" L x 1.5" OD (124.5cm x 3.81cm)

ACCESSORIES

Push/Seal bottom assembly, tube cleaning brush, brush handle extensions, stainless steel safety opening tool, long coupling, and FEP sampling tube assemblies.
