

Soil Sampling Kits

AMS Soil Sampling Mini Kits

AMS Soil Sampling Mini Kits come in a soft poly-canvas case making auger sampling economical and easy. These kits are available in two auger-head sizes.

FEATURES

Regular Mini Sampling Kits

Compact for easy storage, the Soil Sampling Mini Kit arrives in a soft Poly Canvas case making auger sampling economical and easy. Designed just for auger sampling, the Mini Kits include a Regular and a Mud Auger, four Extensions and a Cross Handle.

Available in two different kits and two different connections.

- Regular Mini Sampling Kit 5/8" NC Connection
- Regular Mini Sampling Kit Quick Connect Connection
- Sand Auger

Stainless Steel Mini Sampling Kits

All Stainless Steel components in these Mini Kits make them suitable for sampling soils with low levels of contaminants. Designed for auger sampling, the Mini Kits include a Regular and a Mud Auger, three Extensions and a Cross Handle.

Available in two different sizes and connections.

- SST Mini Sampling Kit 5/8" NC Connection
- SST Mini Sampling Kit Quick Connect Connection

(Note: the quick connect coupling is made from cast steel, not stainless steel)

Core Mini Sampling Kits

The Core Sampling Mini Kits have the same great features as the AMS Soil Sampling Mini Kits along with a 2" x 6" Core Sampler and Hammer for a simple method of collecting virtually undisturbed soil samples in liners. It may be used for sampling at the surface or from the bottom of a pre-drilled hole.

This kit is also available in Stainless Steel.
