

Soil Sampling Equipment

Disposable Samplers

En Core® Sampler The En Core® Sampler collects, stores and delivers soil samples... all within one easy-to-use device. The airtight sealing cap prevents the loss of volatiles as the En Core® Sampler becomes its own self-contained package.

FEATURES

- Collects, stores and delivers accurate soil samples all in the same device with minimal handling.
- Available in 5 gram and 25 gram versions.
- No preservation required.
- The Sampler avoids many sources for lab discrepancies, thus assuring more consistent and accurate analyses.
- Airtight cap that prevents loss of volatiles.
- Exhaustively tested for purity and leak-proof performance.

A 5 Gram Disposable En Core® Sampler

Delivers approximately 5 grams of soil. Use in accordance with SW 846 Method 5035. Works with Standard T-Handle.

B 25 Gram Disposable En Core® Sampler

Delivers approximately 25 grams of soil. Use in accordance with SW 846 Method 5035. Works with Standard T-Handle.

C Standard En Core® T-Handle

Attach either a 5 gram or 25 gram En Core disposable sampler to this Standard T-Handle and push the sampler into the soil for a measured soil sample. ~4.5" long, T-Handle extensions are available.

D En Core® Extrusion Tool

Used to push the sample into an appropriate vial.

Terra Core® Sampler The Terra Core® is a one time use transfer tool, designed to easily take soil samples and transfer them to the appropriate containers for in-field chemical preservation.

For use as described in USEPA SW-846 Method 5035.

FEATURES

- Cost effective
- Time saving
- Disposable
- Takes either 5 gram or 10 gram sample sizes
- All-in-one design
- Available in case of 100

Transferring soil sample from Terra Core Sampler® into a 40ml VOA vial.
