

The Gas Powered Core Sampling Kit is ideal for many field soil sampling applications, including those in limited access areas. The REDI Boss Hammer improves efficiency resulting in more soil samples in less time. The Powered Core Sampler includes the essentials to obtain up to 4 ft. soil cores. After driving the sampler to depth, the included Foot Jack is an ergonomic and easy way to remove the sampler from the ground.

FEATURES

- Ideal for taking 2 ft. or 4 ft. continuous core samples
- Solution for low overhead and remote access areas
- Heavy-duty sample rods
- Can be used with or without a plastic liners
- No power necessary
- Designed from the PowerProbe tooling

APPLICATIONS

- Environmental Soil Sampling
- Agriculture Soil Health
- Nutrient Management
