

Environmental Submersible Pumps

Grundfos 1100S Enviro Retrofitted Submersible Pumps

These Grundfos submersible pumps are made of stainless steel and retrofitted with PTFE to handle the rigors of contaminated groundwater pumping and continuous operation in remediation applications. Built to deliver optimum efficiency during periods of high demand, all Grundfos pumps provide low, long-term operating costs and high operating reliability regardless of the application.

Grundfos Enviro retrofitted submersibles meet government guidelines for environmental equipment and have been proven through extensive use in the field.

FEATURES

- Made For 10" (25.4 cm) and Larger Wells
 Flow rates of 220 to 1400 GPM (832.8 to 5,299.6 LPM).
- State-of-the-art Hydraulics
 Pump efficiency is maximized by constant improvement of the high-performance hydraulic design, and precise manufacturing process.
- Manufactured With High-grade Stainless Steel
 Rugged stainless steel construction inside and out resists corrosion
 and attack from aggressive liquids.
- Wear-resistant Design
 Designed to flush abrasive particles from the pump, and made from stainless steel to resist wear caused by abrasives.
- Built-in Check Valve
 Prevents back-flow into the well once the pump is shut down.
- User Friendly Cable Guard For Easy Installation
- 30 to 250 HP Motors
 Stainless steel construction and quality design.
- Motor Controls and Protection
 Available controls to protect the motor against burnout and dry-running, plus the ability to monitor the system allowing the user to optimize settings.

OPERATION

Typical clean-up operations include water table depression techniques to isolate and remove dissolved contaminants.

With correct placement of the recovery well and proper sizing of the depression pump, the water table is depressed to stop and reverse the movement of the contamination plume. Once isolated, the contaminant is removed for treatment, re-use, or proper disposal.

NOTES: All models suitable for use in 10" wells, unless equipped with 10" motor.

Weights include pump end with motor in lbs.

^{*}Alternate motor sizes available.

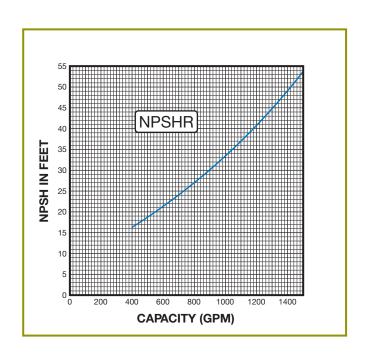

[†]Designed to fit Hitachi® motors.

MATERIALS OF CONSTRUCTION

COMPONENT	CYLINDRICAL SHAFT						
Valve Housing	304 Stainless Steel						
Check Valve	304 Stainless Steel
